PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with strong hands-on experience in software development, application design, and system-level programming. Built multiple academic and personal projects including management systems, network protocol analyzers, and full-stack applications using C++, Java, JavaScript, React, and Next.js. Solid foundation in object-oriented programming, and computer networking concepts, with practical exposure to debugging, testing, and UI optimization. Proficient in C++, Java, JavaScript, SQL, and Git with growing expertise in React, Next.js. Actively seeking a software development internship to apply problem-solving, development, and analytical skills in real-world projects.

WORK EXPERIENCE

Intern (Frontend Web Development) | July 2025 - August-2025 | 6 Weeks

Anemoia

- Gained hands-on experience in **Frontend web development** using **HTML, JavaScript, Next.js,** and **Tailwind CSS**.
- Applied **UI/UX principles** to create responsive, user-friendly layouts and improve overall interface design.
- Learned to **integrate interactive components.**
- Collaborated with team members to understand **project requirements, refine designs**, and **implement functional features**.
- Developed professional communication skills through regular discussions with supervisors and cross-functional teams.

EDUCATION

Bachelor of Science in Computer Science | 2024 - Expected: June 2028 | CGPA: 3.67

COMSATS University Islamabad, Wah Campus

- **Relevant Coursework:** Programming Fundamentals(C++), Object-Oriented Programming (Java), Database Systems, Computer Networking, Digital Logic Design, Discrete Mathematics

HSSC (FCS) | 2022 - 2024| 910/1100

Scholars Science College, Wah Cantt

- **Relevant Coursework:** Completed coursework in FCS (Computer Science, Mathematics, Physics)

TECHNICAL SKILLS

- **Languages**: C++, Java, JavaScript, Python, SQL, Dart
- **Frontend Development**: React.js, Next.js 14, HTML5, CSS3, Tailwind CSS
- **UI/UX & Design:** Responsive Design, Component-Based Architecture, UI Optimization
- **Core Concepts:** Object-Oriented Programming (OOP), CRUD Operations, Authentication
- **Tools & Platforms:** Git, GitHub, Redux, Context API, VS Code, MS Office

FRONTEND WEB PROJECTS

Clustr App | Aug 2025 - Sep 2025 | Anemoia
Built a Twitter-like social platform using **Next.js**, **Firebase**, **Redux**, and **Tailwind CSS**.

- Implemented authentication (Email/Google), post creation, likes/comments, and responsive UI.
- Learned state management, frontend-backend integration, and secure authentication workflows.

Picksyy | Jul 2025 - Aug 2025 | Anemoia

Developed a **feature-rich e-commerce website** with **Next.js, Tailwind CSS, and React.js**.

- Implemented category-based product browsing, shopping cart, dark/light mode toggle, and API data fetching.
- Gained experience in dynamic routing, frontend state handling, and responsive design.

RisexCreative | 2025 | Freelancing

Developed a **portfolio website** for a client using **Next.js and Tailwind CSS**.

- Created a **modern React + Tailwind portfolio section** featuring **motion animations, video showcase, and interactive controls**.
- Enhanced skills in **frontend animation, responsive UI, and creative web design**.

GDG-CUIWAH Portfolio | 2025 | Google Developers Group, Wah

Developed a **demo website** for the university's GDG chapter using **Next.js and Tailwind CSS**.

- Showcased **events, developer activities, and society mission** with a clean, responsive layout.

SOFTWARE & SYSTEMS PROJECTS

Rydex (Java)
- Created a full-stack ride management system with Java (backend), Java Swing (frontend), and MySQL
- Implemented user accounts, route management, fare calculation, booking wizard, and payment lifecycle.
- Strengthened skills in OOP, UI design, and end-to-end system development.

Travel and Tour Management (C++)
- Built a C++ console-based management system with customer management, package booking, login, and full CRUD functionality.
- Strengthened file handling, and problem-solving skills
