Portfolio: ijawadahmad.vercel.app

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in software development, system-level programming, and full-stack technologies (C++, Java, JavaScript, React, Next.js) Strong foundation in OOP, databases, computer networking, and software testing, and UI/UX fundamentals with tools like Figma and Stitch with a focus on building efficient and reliable systems. Proficient in C++, Java, JavaScript, SQL, and Git, seeking an internship to contribute to scalable, secure, and high-performance solutions in industry environments.

WORK EXPERIENCE

Intern (Frontend Web Development) | July 2025 - August-2025 | 6 Weeks

Anemoia

- Gained hands-on experience in Frontend web development using HTML, JavaScript, Next.js, and Tailwind CSS.
- Applied UI/UX principles to create responsive, user-friendly layouts and improve overall interface design.
- Learned to integrate interactive components.
- Collaborated with team members to understand project requirements, refine designs, and implement functional features.
- Developed professional communication skills through regular discussions with supervisors and cross-functional teams.

ChangeMaker Ambassador| February 2026 - March-2026 | 6 Weeks (Remote)

DataCrumbs

- Acted as a key representative to expand the Changemakers community on campus.
- Enabled students to improve career readiness through resume and LinkedIn masterclasses
- Connected peers with valuable resources, including CV banks and mentorship opportunities
- Encouraged professional growth through active networking and engagement initiatives

EDUCATION

Bachelor of Science in Computer Science | 2024 - Expected: June 2028 | CGPA: 3.77

COMSATS University Islamabad, Wah Campus

- **Relevant Coursework:** Programming Fundamentals(C++), Object-Oriented Programming (Java), Database Systems, Computer Networking, Digital Logic Design, Discrete Mathematics

HSSC (FCS) | 2022 - 2024| 910/1100

Scholars Science College, Wah Cantt

- **Relevant Coursework:** Completed coursework in FCS (Computer Science, Mathematics, Physics)

TECHNICAL SKILLS

- **Languages:** C++, Java, JavaScript, Python, SQL, Dart
- **Frontend Development:** React.js, Next.js 14, HTML5, CSS3, Tailwind CSS
- **UI/UX & Design:** Figma, Google Stich, Responsive Design, UI Optimization
- **Core Concepts:** Object-Oriented Programming (OOP), CRUD Operations, Authentication
- **Tools & Platforms:** Git, GitHub, Redux, Context API, VS Code, MS Office

Co-CURRICULAR ACTIVITIES

- **Media Manager:** Comsats Heritage Society
- **Marketing Co-lead:** Student Startup Business Society
- **Senior Media Member:** Comsats Sports Society
- **General Member:** GDGoC CUI Wah

CERTIFICATIONS

- **Fundamentals of UI/UX Design** (Microsoft)
- **Python Basics** (University of Michigan)
- **HTML, CSS, and Javascript for Web Developers** (The Johns Hopkins University)
- **Google Stitch** (DataCrumbs)
- **Web Development Bootcamp** (Google Developer Groups on Campus CUI Wah)
- **React Bootcamp** (Google Developer Groups on Campus CUI Wah)

FRONTEND WEB PROJECTS

Clustr App | Aug 2025 - Sep 2025 | Anemoia

Built a Twitter-like social platform using **Next.js**, **Firebase**, **Redux**, and **Tailwind CSS**.

- Implemented authentication (Email/Google), post creation, likes/comments, and responsive UI.
- Learned state management, frontend-backend integration, and secure authentication workflows.

RisexCreative | 2025 | Freelancing

Developed a portfolio website for a client using **Next.js** and **Tailwind CSS**.

- Created a modern **React + Tailwind** portfolio section featuring motion animations, video showcase, and interactive controls.
- Enhanced skills in **frontend animation**, **responsive UI**, and **creative web design**.

PixeltoPen (text-to-handwritten) | Personal Project

Developed a web application that converts typed text, PDF, or DOCX files into realistic handwritten assignment pages

- Implemented notebook-style page generation, handwriting font rendering, and PDF export functionality using Python.
- Built a modern, responsive UI with **Next.js**, **Tailwind CSS**, and deployed the application on **Vercel**
- Gained experience in file processing, image generation, layout rendering, and full-stack deployment.

SOFTWARE & SYSTEMS PROJECTS

Rydex (Java) | Semester Project

- Created a full-stack ride management system with **Java** (backend), **Java Swing** (frontend), and **MySQL**
- Implemented user accounts, route management, fare calculation, booking wizard, and payment lifecycle.
- Strengthened skills in **OOP**, **UI design**, and **end-to-end system development**
